

MULTI-UNIT METER BOXES

The space saving solution for multi-dwelling properties

Multi-Unit Meter Boxes provide space and installation cost savings for residential and light commercial applications. The multi-unit gas meter-boxes have been specifically designed for space challenged building sites, like small apartment blocks and town houses. Different size meter boxes are available to suit a range of on-site requirements.

FEATURES

- ✓ Self contained units for two or three standard AL8 meters
- ✓ Material: Galvanised Sheet Steel
- ✓ Spacer available for joining multiple meter boxes
- ✓ Face mounted to suit single screen wall construction, or
- ✓ Standard meter box installation to suit double cavity walls
